Un popolo scompare. Ma l'Europa potrebbe fare un gesto straordinario: creare uno stato afgano virtuale e temporaneo per gli Afghani all'interno dell'Europa. Non e' fantapolitica. Sarebbe un risarcimento per quanto fin qui omesso.

La Nato per mano di Trump, non fermata da Biden, ha abbandonato l'Afghanistan.

Nella domanda di Sadid Lailuma c'e' tutto l'urlo della storia per una politica che uccide le persone voltandosi e pagando delinquenti per schiavizzare popoli. Hitler era un apprendista a confronto.

Lo ripeto: diamo soldi ai campi di concentramento libico e facciamo morire un popolo di 20 milioni di persone, e quelle in Europa aspettano una tutela che non viene loro data.

L'Europa potra' rinascere non con i vaccini: questo e' un suo dovere.

L'Europa potra' rinascere aiutando gli ultimi del mondo: perche' sara' onorevole farlo. Subito.

Gli USA e gli Europei hanno fallito in "pacta sunt servanda". C'e' poco altro da dire.
